

Patricia Diorio

Transformational Speaker

MINDFULNESS IS THE BOTTOM LINE

How Leveraging Consciousness Can Improve Corporate Culture and Profits

Are you looking for a refreshing, innovative and exciting approach to inspire your team to greater productivity, creativity and success? In this program, you will learn that consciousness is not something that is attained. Rather, it is our true nature, the essence of who we are.

Consciousness is mindfulness and it encompasses all philosophies because it is grounded in science, particularly quantum physics. It is a powerful awareness, an inner knowing, that simply emerges when the opportunity presents itself. This keynote provides the opportunity, and it can be life changing.

The fact is that we are energy beings in physical form with an innate ability to create our reality with our thoughts words and feelings, which are also energy. So, how can we harness this energy and use it to meet and exceed all goals and challenges?

The answer is mindfulness.

Patricia Diorio is a passionate transformational speaker. She is committed to informing, inspiring and motivating people to achieve their goals and dreams through an understanding of how mindfulness raises consciousness and improves our lives in every way.

She is the creator, executive producer and co-host of the Get Conscious Now! Television show in Santa Barbara, CA and now syndicated in over 20 markets across the US.

Over the past 14 years she has demonstrated how science and consciousness are the same conversation, through her interviews with over 300 pioneers of evolutionary thought, such as Dr. Deepak Chopra and Dr. Bruce Lipton.

In Addition, with a Masters in Counseling Psychology, she brings several decades of experience in education and counseling to her private practice, helping clients move to their next level of personal growth and the achievement of their goals, dreams and life purpose.

Your Team Will Learn and Apply:

- A logical, left brain understanding of how everything is energy as proven by science.
- How their thoughts and feelings affect their performance regardless of whether they know it or not or like it or not.
- An exciting awareness that they are creators of their reality and are fully responsible for how their worlds show up professionally and in their personal lives.
- How to deliberately create a new reality by staying mindful and consciously choosing thoughts that are a reflection of their goals (intentions) and desires.
- Innovative and effective tools that shift negative patterns and limiting beliefs.

Speaking Topics

Finding Balance Between our Inner and Outer Worlds

Though we live in a society that abides primarily by the belief that the world is outside of us, science tells us that the world is inside of us and we are continually creating it through our thoughts, feelings and words.

Manifesting Your Dreams... a Matter of Quantum Physics

There's a lot of conversation today about how we create our reality with our thoughts and words. This talk will provide The Six Keys to Successful Manifesting and explain how science substantiates our innate ability to be creators of our worlds.

Believing is Seeing

We have always been told that "Seeing is believing". However, the irony is that the opposite is true. Before anything can come into form we must intend it, imagine it and see it in our inner world first.

The Seduction of the Material World

Being mindful is not easy in this hectic world, where achieving material success can be the most important goal, especially in the corporate environment. Mindfulness is a powerful and effective tool to manage our stress levels, maintain good health, and achieve our goals and dreams. This talk will provide actual daily practices that lead to living a mindful life.

What People are Saying

"Patricia Diorio is an articulate, engaging, enthusiastic and knowledgeable speaker. I have seen her in action in several different kinds of venues and circumstances and have marveled at how she holds the attention of her audience even when presenting more esoteric material. She brings passion and brains to her work which is inspiring and contagious.

~Teresa Taylor, Owner of Paradise Found Bookstore, Santa Barbara California

"What I like about your work. You. Your presence, passion, and skill are superb. Your command of the material, the research you have done, the road you've traveled, all combine perfectly into the qualities that result in a dynamic, powerful speaker. Whether you have a large or small audience, I imagine that doesn't change. The material was presented in easy-to-understand words and print, supporting your compelling delivery."

~ Marcia Orland, Afterglow Media, Carpinteria, CA

"I have attended presentations by Patricia and was very impressed with her clarity and presence. She made me feel at ease and at the same time excited to hear what she had to say. Her warmth and personality as well as her wealth of knowledge and experience give her a great command of the audience. She literally empowered me to turn my life around."

~Richard Dolwig, Attorney & Mediator, Santa Barbara, CA

Why Patricia is the Ideal Speaker for Your Group

Smart, warm and insightful, Patricia delivers high content programs showing how science and consciousness are one conversation. A true professional, she will personally ensure that your group is fully engaged and empowered to implement what they learn in their professional and personal lives.
